### **Some Nice Things People Have Said**

*If anyone is going to find hope and inspiration from the darkest of days, it's Sonia Lee. Combining style and grace with a well-traveled edge, Lee delivers from the depths of her soul.*

**Host of Americana Tonight**

*Sonia Lee's voice is so gentle and sweet . . . . The music on her new True CD ain't quite country, but the electric twang bristles and hints at a Lucinda Williams-type steeliness: reserve with resolve.*

**City Newspaper, Rochester, NY**

*This is a wonderful CD with great production, provocative lyrics and catchy melodies.*

**Music News Nashville**

*Sonia Lee music is 'soft-as-a-baby's-heart' honest folk music...a "True" child of Woodstock by way of Nashville, her songs are sincere, with only the tiniest whisper of twang.*

**Author (*My Angels Wear Fur*) and Radio Personality**

*My wife and I made reservations at the Bluebird Café during our vacation in Nashville, Tennessee, not knowing who the singer was going to be. To our amazement, Sonia was the best part of our four-day trip to Music City. Her stage presence, professional stature, and top quality voice along with other fine musicians made our visit to the Bluebird an evening to always remember. We listened to her CD twice while on the way back to Virginia. It sounds even better at home.*
